

Can gliders save whales?

Tetjana Ross, Fisheries and Oceans Canada

Email: Tetjana.Ross@dfo-mpo.gc.ca

We all love toys and oceanographers are no exception. But, can the latest ocean technology be used to prevent ships from striking and killing whales? Dr. Tetjana Ross will tell you about a project in which scientists are trying to do just that and along the way you'll learn about how ocean gliders work and how to really listen to the ocean.
